

Discussion Activity

Genius, Math, the Brain, Accidents

Genius and Intelligence:

1. What can you do to increase your intelligence?
2. Why are some people more intelligent than others?
3. Does intelligence run in the family?
4. Does school make a person more intelligent?
5. Can scientists create Artificial Intelligence that is greater than our intelligence?
6. Who is the most intelligent person you know? Why do you think so?
7. Does being very intelligent make you happy?
8. What is the most intelligent animal?
9. How intelligent do you think you are?
10. What separates a person from being very intelligent and being a genius?
11. What do you think of IQ tests? Have you ever done one? Are you a genius?
12. Are people born intelligent or does the environment "make" them intelligent?
13. Do you think there is any way to increase your intelligence?
14. What are the traits of an intelligent person?
15. Who is the most intelligent person in the world?
16. Are there any disadvantages to being intelligent?
17. Can artificial intelligence replace human intelligence?
18. How does the environment impact intelligence?
19. What is the relationship between intelligence and creativity?
20. Is it possible to increase your level of intelligence through training or practice?
21. Are you especially good at any particular subject or skill?

MATH:

1. How do you use math in your daily life?
2. Can you think of a time when math helped you solve a problem?
3. Do you think math is fun? Why or why not?
4. How do you think math will change in the future?
5. How can math help you in your future career?
6. Do you think everyone should learn math? Why or why not?
7. What is the most interesting math topic you have learned?
8. How is math used in different cultures?
9. Can you name any famous mathematicians?
10. What role does math play in art?
11. How does math relate to music?
12. Why is math important in our everyday lives?
13. What is your favorite branch of mathematics and why?
14. Can you give an example of a real-world application of mathematics?
15. How do you stay motivated when learning mathematics?
16. What is the most challenging math concept you have ever learned?
17. What resources do you use to learn mathematics?
18. What is the most important thing to know in order to succeed in math class?
19. How do you think math education can be improved?
20. Were you good at math at school?
21. Are you good at mental arithmetic now?
22. Why is math so important at schools?
23. Are all intelligent people good at math?
24. Are girls or boys better at math?

The Brain:

1. What do scientists know about the brain?
2. How is the brain structured?
3. What diseases affect the brain?
4. Who has the best brain in your family?
5. What do you know about your own brain?
6. Do you know what Left Brain, Right Brain means?
7. What do you think the differences are between male and female brains?
8. If you had a brain transplant, do you think you would have a new personality?
9. What is the most amazing thing about the brain?
10. What is the most mysterious?
11. What are some extraordinary things some people can do with their brains?
12. What do you wish your brain was better at?
13. Do you think male and female brains are better at different tasks? Why or why not?
14. Do you think humans will ever completely understand the brain? Why or why not?
15. When do you use your brain the most?

Accidents:

1. Have you ever seen a car accident?
2. What should you do if you see an accident?
3. How do you call for help in an emergency?
4. Why is it important to wear a seatbelt?
5. What are some common causes of accidents at home?
6. What should you do if you have a small accident at home?
7. Can you describe a bicycle accident?
8. Have you ever had a sports accident?
9. Why is it important to pay attention while walking on the street?
10. What do you think about people who use their phones while driving?
11. Have you ever hurt yourself while cooking? How?
12. What should you do if there's a fire?
13. Why are helmets important for biking?
14. How do you cross the street safely?
15. Where do you think that most accidents happen: at home or at work?
16. What do you think are the most common accidents at home?
17. Have you ever seen a very bad accident?
18. Have you ever broken a bone? What happened?
19. Have you ever studied first aid? What did you learn?
20. Do you practice any sports? Is it ever dangerous?
21. What are the most dangerous sports?
22. Do you think that dangerous sports should be prohibited?
