One Minute Speech

Let's practice giving spontaneous speeches on the spot!

Training points:

- Quick, creative, and on-the-fly thinking.
- Short speeches about a given topic.
- No assistance from the listener.
- Useful for interviews, speaking-exams, and speeches.

Topic: Summer Activities

Speak about the topic for **exactly one minute**.

You cannot stop before 1 minute, and you **must stop** after one minute.

The listener **cannot help the speaker** continue their speech by asking questions during the speech.

Even if the speaker is faltering and doesn't know what to say next, the **listener must stay silent** and just wait for the speaker to continue.

After the speech, listeners can ask **one follow-up question**.

Use your **smartphone's countdown-timer** in order to keep time.

Set your timer to one minute.

Topic: Summer Activities

What is your favourite summer activity? **Why?**

Where can you do this activity?

Who do you like to do this activity with?

When do you usually do this activity?

How often do you do this activity?

How do you prepare for this activity?

When was the last time you did this? **Tell me about** that experience.

Compare your favourite summer activity with your favourite winter activity.

Which do you prefer and why?
