Hello. How nice of you to come! Come on in. It's nice to meet you. I'm so glad you guys got to come. Oh, you like the house? Let me take you on a tour.

This is the dining room. Um, this is Italian furniture. Rich picked it out for me for our anniversary, so this was my gift from my husband. Oh, and that's the picture of me, Rich and Ashley at a wedding. My sister got married in June.

Oh, and you wanna see the kitchen. Okay. Here's the kitchen. It's, um, I have, uh, walnut cabinets. We have a little bar area. Oh, you like champagne and wine, huh? Well, we're going to have some for dinner. We're going to celebrate for you coming. And.... The kitchen's pretty big, isn't it? And, oh, these. These are our window. We get to look out the backyard. We can watch Ashley on the swing set. We can watch my husband mow the lawn and clean up the deck.

And this is the living room. Oh, you like the fireplace? Well, we had the fireplace, uh, built when we built the home. And... oh, and that's our wedding picture. We've been married eleven years now. And these are all my birthday cards. And this, oh, and this, a very good friend of mine, a beautiful flower basket arrangement she gave me as a thank you, just for inviting her over for dinner. Very nice friend. And this is our entertainment unit. We have a television, and a stereo, and a VCR. And these are all Ashley's baby pictures. We like to show them off. We're very proud of her.

And, oh, you want to see the bedroom. Let me take you into the bedroom. Uh, this is our bedroom set. And you can tell I like perfume. I get that every year for my birthday. And we have walk-in closets. We have a master bath. Oh, You like the colors? The colors are gray and maroon, and white.

Okay. And, oh, let me show you the bathroom. This is our guest bathroom. I know you're gonna like this. The colors. It's a dark green with a gray. And I did all the decorating myself. You can tell I like green and peach. Those were my wedding colors.

And this is Ashley's room. Excuse the mess, but she's only five. And little five-year-old girls, don't like to be that neat. But hopefully, when she gets bigger, she'll be more like Mommy. And this is her new bed we bought her for her birthday. And she loves Barbie, so we bought her a Barbie set-the pillows, and the quilt, and the sheets. All her dolls and stuffed animals. She's getting so big. Okay, are you guys ready for dinner?
